

MEIYARASAN P

Software Engineer | Full Stack Engineer (Frontend Focused)

Erode, Tamil Nadu, India (Open to Relocation) | +91-97888-80506 | meiyarasan1509@gmail.com LinkedIn: linkedin.com/in/meiyarasan-p | GitHub: github.com/MEIBHAI1509 | Portfolio: meiyarasan.in

PROFESSIONAL SUMMARY

Software Engineer with 2+ years of experience in frontend-focused software development, building responsive web applications using React.js, Next.js, Angular, and TypeScript. Experienced in reusable component development, frontend architecture, GraphQL and REST API integration, and production debugging. Hands-on exposure to PostgreSQL, DynamoDB, and Redis through application development and data-related issue resolution. Experienced in white-label application development, implementing customized UI and functionality for different client requirements. Comfortable collaborating with backend and design teams, modifying existing APIs, and supporting production applications. Currently expanding full-stack development knowledge through personal projects and project-based learning.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), TypeScript, Java, SQL

Frontend: React.js, Next.js, Angular, HTML5, CSS3, Tailwind CSS, Responsive Design

UI Libraries: shadcn/ui, Radix UI, Framer Motion, Lucide React

Frontend Engineering: Reusable Component Architecture, Frontend Architecture, API Integration, White-Label Development, Responsive UI Development, Production Debugging

Backend & APIs: Node.js, REST APIs, GraphQL, Apollo GraphQL, Third-Party API Integration, API Modification

Databases: PostgreSQL, DynamoDB, Redis

Cloud & Deployment: AWS, Amazon S3, CloudFront

Authentication & Integrations: Supabase Auth, Google OAuth, Resend, PayPal, Stripe

Development Tools: Git, GitHub, GitLab, Postman, Altair

PROFESSIONAL EXPERIENCE Aretedge Innovations Pvt. Ltd.

Associate Software Developer

Hyderabad, Telangana, India (On-site)

Jul 2024 – May 2026

- Developed and maintained responsive web applications using React.js, Next.js, and Angular, focusing on reusable components and maintainable frontend architecture.
- Built reusable UI components and frontend modules to support consistency across multiple products.
- Integrated GraphQL and REST APIs to support application workflows and frontend data handling.
- Worked with Apollo GraphQL for frontend API integration and application data flows.
- Modified existing APIs to support application requirements and collaborated with backend teams on API-related changes.
- Worked with PostgreSQL, DynamoDB, and Redis in application development and data-related issue resolution.
- Developed and delivered white-label applications, implementing customized branding, UI, and functionality based on client requirements.
- Optimized frontend performance and responsive behavior across desktop and mobile devices.
- Collaborated with backend and design teams to translate requirements and designs into production-ready frontend solutions.
- Contributed to application delivery across UI implementation, API integration, frontend development, debugging, and production support.
- Investigated and resolved production issues through frontend debugging, issue analysis, validation, and urgent fixes when required.
- Used AWS S3 to add and update application assets, including images, videos, and PDF files, with exposure to CloudFront-based delivery.
- Tested GraphQL APIs using Altair and supported API-related validation and debugging.
- Received direct client appreciation for delivering high-quality frontend solutions.

- Developed and maintained frontend features for a testing management tool that enables testers to create and manage stories and test cases.
- Built reusable React components to improve code maintainability and development efficiency.
- Integrated REST APIs to connect frontend features with backend services and support application workflows.
- Worked on AI integration to enhance the functionality of the testing management platform.
- Assisted with frontend deployment activities using Amazon S3.
- Collaborated with the development team to implement features, resolve issues, and improve the overall user experience.

PROJECTS

Selavu Kaavalan – Expense Tracker | *Next.js, React, TypeScript, Supabase, PostgreSQL, Tailwind CSS*

Links: [Live Demo](#) | [GitHub](#)

- Built a responsive personal expense management application with separate user and admin experiences.
- Implemented expense, wallet, category, and dashboard workflows using reusable frontend components.
- Added support for tracking Recurring Deposits (RD), Fixed Deposits (FD), and Mutual Funds.
- Implemented customizable financial tracking features, allowing users to manage their own categories and related records through CRUD operations.
- Developed authentication workflows, form validation, responsive layouts, and dark/light theme support.
- Integrated Supabase-backed data management for application workflows.

Vambu – Real-Time Chat Platform | *Next.js, React, TypeScript, Supabase, PostgreSQL, Resend*

Links: [Live Demo](#) | [GitHub](#)

- Built a responsive chat application featuring authentication, user profiles, messaging workflows, and responsive UI.
- Integrated Supabase authentication and database functionality for application workflows.
- Implemented email-related workflows using Resend.
- Developed reusable UI components and responsive layouts for a modern chat experience.

EDUCATION

K.S.R. College of Engineering

Bachelor of Engineering (B.E.) in Computer Science and Engineering | **CGPA: 8.24/10**

Namakkal, Tamil Nadu, India

Aug 2019 – May 2023

CERTIFICATIONS & ACHIEVEMENTS

7-Month MERN Stack Course – JSPiders, Bangalore

Prompt Engineering – Great Learning Academy

HTML and CSS – Great Learning Academy

Angular – Udemy

Best Performer — September 2025 – Aretedge Innovations Pvt. Ltd.

Best Performer — October 2025 – Aretedge Innovations Pvt. Ltd.

Direct Client Appreciation for delivering high-quality frontend solutions.
